Whereas, A Bill purporting to be a supplement to the Acts of Assembly incorporating the Lombard and South street Passenger Railroad Company, is now pending in the Senate of this Commonwealth, which authorizes and empowers (among other things) the said company to extend their railway along Dock street from Front street to Third street, along Third and Second streets from South to Market streets, along Front street northward to Vine street, and upon any other street from their present line to Market street, which is not now occupied by a railway track; to extend their track to the Eastwick Skating Park, and to carry marketing, vegetables, fruit and light freight on said railway between Broad and Prime streets and Delaware avenue; all of said unlimited powers and franchises to be exercised without the consent of the Councils of the City of Philadelphia being first had and obtained.

And whereas, In accordance with manifest propriety and public expediency, the present charter of the aforementioned company requires the consent of the Councils of Philadelphia to any further extension of their railway along any street of the said City; and any attempt to repeal such salutary provisions in said charter should, in the discharge of an imperative public duty, be resisted by the Councils of the City of Philadelphia, by petition or remonstrance addressed to the General Assembly of the Commonwealth of Pennsylvania.

Therefore be it Resolved, by the Select and Common Councils of the City of Philadelphia, That the General Assembly of the Commonwealth of Pennsylvania is hereby respectfully and earnestly requested and petitioned not to enact into a law the aforementioned bill now pending in the Senate; or any bill of a like nature, without making necessary to the validity of the grant therein of a franchise or franchises to lay or use a railway track or tracks in, upon or along any public street, avenue or highway of the City of Philadelphia, that the consent of the Councils of the City of Philadelphia thereto shall be previously asked and obtained.

Resolved, That the Presidents of the Select and Common Councils of the City of Philadelphia, are requested and directed to lay before each branch of the General Assembly of this Commonwealth these Resolutions and the Preamble thereto, duly attested, as early as practicable.

RESOLUTION

Relative to the School Department.

Whereas, the Councils of the City of Philadelphia, in order to carry on the City government, support the public schools, &c., have been obliged to impose most onerous taxes on their fellow-citizens.

And whereas, the Controllers of the Public Schools, without the approval of Councils, have applied to the Legislature for authority to set aside and divert from the general treasury a portion of the receipts of the taxes, so that the School Department may obtain an advantage over others not so favored.

And whereas, this policy, if followed up by the other departments, will have the effect to fritter away the public

funds, and to create as many distinct treasuries as there shall be departments so favored.

Therefore, Resolved, by the Select and Common Councils of the City of Philadelphia, That these Councils do earnestly protest against said legislation, and do request our senators and representatives at Harrisburg to vote against the passage of the same; and that the Clerks of Councils send a copy hereof to each of the senators and representatives of this Commonwealth.

RESOLUTION

Of request to the Legislature of Pennsylvania.

Whereas, the City of Philadelphia have expended about twelve millions of dollars ($12,000,000) in the payment of bounties to, and in support of the families of volunteers, who enlisted in the Federal armies, since April 1861, for the purpose of upholding the Constitution and Government of the United States.

And whereas, many States of the Union have provided for the payment of bounties &c., out of the State Treasuries.

And whereas, the present Councils of Philadelphia believe these extraordinary expenses should have been paid by the State of Pennsylvania, and thus have relieved our City from the heavy burden now oppressing its taxpayers and crippling its finances.

And whereas, the authorities of Pennsylvania have

lately instituted proceedings against the City of Philadelphia for a claim of four hundred and thirty nine thousand two hundred and twenty-eight dollars and thirty-four cents, upon which judgment was entered.

And whereas, the collection of this judgment by the State authorities at this time, in view of the circumstances above stated, would be unjust to a municipality always prominent in its support and devotion to the interests of both the Union and the State.

Therefore, Resolved, by the Select and Common Councils of the City of Philadelphia, That the Legislature of Pennsylvania be respectfully requested to enact a law releasing the City of Philadelphia from the payment of the judgment for four hundred and thirty-nine thousand two hundred and twenty-eight dollars and thirty-four cents, obtained by the State of Pennsylvania against the City of Philadelphia, in the Court of Common Pleas of Dauphin County, to August term, 1865, No. 81, entered December 2d, 1865.

RESOLUTION

And Protest against the enactment of a certain Law.

Whereas, The Board of Controllers of the Public Schools of the First School District of Pennsylvania, at a meeting of their body, held at their chamber on the 13th of February, ult., did pass a resolution recommending the passage of a certain Act of Assembly, a draft of which they had prepared, viz.: "An Act supplementary to the Act approved 2d of February, 1854, entitled 'A Further Supplement to an Act entitled an Act to incorporate the City of Philadelphia,'" in which it is proposed to make the department of Public Schools an exception to the general laws governing the departments of the City.

And Whereas, The Councils of the City have to assume the responsibility of laying the tax rate for each year; and further, that the rate now borne by the citizens of Philadelphia is sufficiently onerous;

And Whereas, The measures and proceedings directed to be performed by the said proposed Act of Assembly will, if the same shall become a law, most certainly cause a deficiency at the end of the year 1866, besides destroying that power of restraint over expenditure which should always reside with the authority that imposes the taxes; therefore,

Resolved, by the Select and Common Councils of the City

of Philadelphia, That these Councils do most earnestly protest against the passage of the proposed Act of Assembly.

Resolved, That a copy of the foregoing preamble and resolution be sent to each member of the Legislature of Pennsylvania.

President of Common Council.

AN ORDINANCE

Regulating the Assessment upon Property for the construction of Sewers.

Whereas, The General Assembly of the State did, by act approved March 30, 1866, direct that all charges and rates to be made by the city of Philadelphia for the construction of sewers, shall be fixed from time to time by ordinance of Councils; therefore,

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That whenever any sewers or drains shall be laid in any of the streets or highways within the city of Philadelphia, the owners of the ground in front whereof the same shall be laid, shall pay for the expense thereof the sum of one dollar and twenty-five cents for each foot of the front of their ground upon such street: *Provided*, That on all corner lots an allowance shall be made of one-third the length of one of their fronts, such allowance to be always and only on the street or highway having the longest front, and no claim for deduction shall thereafter be considered where, by change of property lines, the allowance made shall, by such alteration, be placed upon the short side. In case both fronts are equal in dimensions, the allowance shall be made on the side along which a sewer shall be last laid, both sides having a sewer; and in cases where a full block is unimproved, the depth of lot for computing the allowance shall be taken as half the length of block, but in no case shall the allowance exceed fifty feet on any corner lot.

SEC. 2. Upon the completion of any sewer or drain, it

shall be the duty of the Surveyor and Regulator of the district in which such sewer or drain may be located, to return to the Chief Engineer and Surveyor bills in duplicate made out against each property fronting thereon, in accordance with Section 1 of this ordinance, and assess the expense of laying such sewer or drain at the sum hereinbefore mentioned against the several owners of ground fronting on street in which said sewer may lie, in proportion to their respective fronts, which bills shall be recorded and certified to by the Chief Engineer and Surveyor, and sent to the Chief Commissioner of Highways. The bills, as returned to the Chief Engineer and Surveyor by the Surveyor and Regulator, shall be accompanied by a plan of the sewer, showing its position, size and depth, with the location of the inlets and man-holes, and also the properties fronting thereon, with the names of the owners thereof, all of which must be on file and duly recorded before a final estimate for the construction of said sewer shall be signed and issued by the said Chief Engineer and Surveyor.

Sec. 3. That all applications for the construction of sewers or drains, not exceeding three feet in diameter, shall be made by owners of property fronting thereon to the Board of Surveyors, and shall exhibit a list of all the owners of property fronting upon the sewer asked for, with the dimensions of each front; and when such application has been approved by the said Board and sanctioned by the Committee on Surveys and Regulations, notice thereof shall be sent to the Chief Commissioner of Highways, who shall at once advertise for the construction of the same, and allot the work to the lowest and best bidder, giving the requisite security.

Sec. 4. It shall be a condition of the contracts awarded under the provisions of this ordinance, that the contractor shall accept assessment bills prepared under Section 2 of this ordinance, and endorsed by the Commissioner of Highways in favor of said contractor, as so much cash paid by the City on the said contract, and that he shall collect the same at his own cost without recourse to the City in any event; and the better to enable him so to do, he may use the name of the City of Philadelphia, and employ all legal remedies or proceedings, whether of lien or otherwise, to which the City may be competent: *Provided*, That said

contract is fulfilled in accordance with specification furnished by the Chief Engineer and Surveyor, as well as the lines, levels and directions given by the Surveyor and Regulator of the district.

SEC. 5. Should any of the bills of assessment so prepared against the owners of property upon said sewer or drain remain in possession of the City after the contract for its construction shall have been completed and final estimate paid, then and in that case the Chief Commissioner of Highways is hereby authorized and directed to proceed to collect the same, and if necessary, through the City Solicitor, file claims therefor as is now practised and allowed by law for debts due the City. But no sewer shall be contracted for or constructed under this ordinance where the amount of assessment bills are insufficient to pay the cost thereof, until an appropriation to meet the deficiency be made therefor by Councils.

SEC. 6. That it shall not be lawful for any person or persons to lay a sewer or drain in and along any of the public highways of the City of Philadelphia, without the sanction of Councils or the Board of Surveyors, as herein provided; and any person or persons who shall so infringe upon this ordinance, whether projector or builder, shall be subject to a penalty of one hundred dollars, to be collected as debts due the City now are, or may be hereafter by law recoverable.

SEC. 7. All persons owning property upon the line of any sewer or drain, built after the passage of this ordinance, or who shall, by receipt produced or otherwise, show that he has contributed to the cost of constructing the sewer fronting his property, shall have full authority to make a connection therewith from said property upon obtaining a permit therefor at the Department of Highways, and paying the sum of three dollars, but should the highways be not paved, said permit shall be granted without other charge than is authorized in ordinance, approved May 3d, 1855, relative to sewer rental, but when no receipt is produced or satisfactory evidence given, that the cost of sewer has been contributed to by the property owner, then the charge for said connecting permit, shall be ten dollars, as in said ordinance specified: *Provided*, All such connections be made under the direction and subject to the approval of the sur-

veyor and regulator of the district, or such other agent of the City as may be duly authorized by Councils.

SEC. 8. That in all cases where parties are desirous of constructing a sewer of less diameter than three feet in a public highway at their own expense, application therefor must be made to the Board of Surveyors, who, if approving, shall determine the size and material of said sewer, and grant authority for its construction, subject to the approval of the Committee on Surveys and Regulations: *Provided,* The party so applying, shall enter into an agreement, that the said sewer shall be built in accordance with specifications prepared at the Department of Surveys, and also in conformity with lines and levels to be given by the surveyor and regulator of the district, and shall be constructed under the directions as specified in ordinance approved June 20th, 1863, entitled "An Ordinance reorganizing the Department of Surveys;" after the completion of which it shall be the duty of said surveyor and regulator to prepare a plan of said sewer and file the same in the Department of Surveys, as specified in Section 2 of this ordinance, and in all cases where a sewer or drain has been so constructed and the plan thereof, with its cost, has been filed in the Department of Surveys, no permit shall be granted by the Highway Department for a connection therewith, to any party, unless he shall exhibit a receipt, showing that he has contributed to the expense of its construction, which prohibition shall be null and void after the lapse of ten years from the date of filing the plan and cost in the Department of Surveys.

SEC. 9. That the ordinance, entitled "An Ordinance to provide for the construction of branch culverts or drains," approved April 11th, 1858, and any other ordinance or parts of ordinance which are inconsistent with the provisions of this ordinance be and the same are hereby repealed.

Whereas, A bill has been presented to the Legislature which is said to have originated in the present Board of Directors of the Girard College, asking authority to commit pupils of the College to the House of Refuge for improper conduct.

RESOLUTION

Of Thanks to Members of Congress, Secretary of the Navy and others relative to League Island.

Resolved by the Select and Common Councils of the City of Philadelphia, That the thanks of the City of Philadelphia are hereby tendered to the Representatives thereof in the United States House of Representatives—Hon. Samuel J. Randall, Charles O'Neill, Leonard Myers, William D. Kelley and M. Russell Thayer—for the untiring zeal with which they have urged the acceptance by the Government of the gift of League Island as a site for a naval depot, and for the distinguished ability they have displayed in refuting objections and advocating the interests of the State and of the City in this behalf.

Resolved, That to the Representatives in Congress from the State of Pennsylvania, who so steadfastly adhered to the claims of their commercial metropolis in this struggle, we return the heartfelt acknowledgments of this community, and trust that the State and the City may always be found thus co-operating for the common good.

Resolved, That to the disinterested men of all parties in the National House of Representatives, who, acting solely for the good of the public service and with no eye to local interests, have at last succeeded in passing the League Island bill by so decisive a majority, we owe our sincere gratitude.

Resolved, That we look to the National Senate with confidence for an early concurrence in the action of the House of Representatives, in order that the Philadelphia Navy Yard, now so narrow, cramped, inconvenient and inadequate to the demands made upon it, may be removed to a capacious and admirably situated ground, suited to the progress of the national service.

Resolved, That to Secretary Welles we owe a final tribute for his unwavering advocacy of the acceptance of League Island for an iron clad naval depot, against the violent and unremitting hostility of his own State; and we beg to express the hope that he may soon have the satisfaction of beholding League Island the vast naval depot he intended it to be, and that on his retirement from the high office so long

filled and adorned by him, he will leave the nation in possession of a perfectly secure centre of naval preparations, from whence the most powerful naval armaments may at any time be fitted out, with less cost and loss of time than at any other point on the Atlantic seaboard.
